FAIRMOUNT FIRE COMPANY.—The members of a Company have offered a reward of Fifty Dollars for the ariction of the Philadelphia Correspondent of the New-York fibune, who, in a series of letters, has charged the members gid Company with the destruction of the Good Will Hose-secons's apparatus."

The above appears among the local items of the Public Ledgof this morning, in whose columns are also contained the scial proceedings of the Fairmount Company. Now, with due deference to the feelings of the members of the aggriev I due deference to the feelings of the raembers of the aggree-4Company, I will only say, the statements I have given to sepublic were founded upon the best authority, and no de-seon my part was ever manifested to do injustice to the airmount Engine Company. It is a notorious fact, that the inh the destruction of their apparatus—the members of the fectace Hose did the same thing, and still do—three-fourths (the people of the City and County of Philadelphia believe gs in question; and unless they can screen themselves fro ess charges, otherwise than by the passage of such resolu-ous as the following, I fear they never will be released from mesame. They cannot draw public attention from their out-age by such appeals to the public:

ge by such appeals to the public:

"Resolved. That it is with the greatest indignation we view wanton destruction of the property of respectable and sorthy citizens, for the purpose of gratifying a mean appetite is revenge, and believe the late dissertions conflavoration gear geen street wharf to have been expressly set on fire to edite his company to that part of the county, for the purpose of stroying the same by a body of ruffans connected with a testian hose commany in that vicinity; and also that the fire in the evening of the 22d of February last, near the Wire Bridge, we believe to have been expressly made for the same appose, as bodies of armed ruffans, known to be connected with a certain hose company in that neighborhood, were seen as on the other properties of the Fairmount with them."

The Committees in offering the above resolution, and the Company in publishing the same, have made grave and series charters, the consequence of which yet remains to be seen. Im willing at all times to correct any misstatement I may have made, but until stronger and more certain proof than also contained in the inflammatory proceedings of the Fairmount Fire Company is presented. I cannot retrace. Would ney like the names of those who have made bold their threits, a particular, against the Wiccaroe Hose given to the world? I sheek nothing but what I am prepared to substantiate upon one of the presented.

DEATH OF A GOOD AND VENERABLE MAN.—PE-TER S. DUPONCKAU is no more! He died at his residence. N. E. corner of Chesnut and Sixth streets, about 12 o'clock last-night, at the advanced age of 91 years. As a linguist and ci-nilian, the name of the reherable Duponceau has leng been en-leared to the people of this country. As the President of the Pennsylvania Philosophucal Society, his loss will be deeply amented. The many writings of Mr. Duponceau, all of which are highly prized, I understand have been properly ta-tecare of, and will be published at some future day for the penelt of mankind. They are valuable, and would form a work of considerable magnitude. In the death of this venera-his man, society has lost a noble and generous philapathropist.
